

Organoid

Surfaces Collection

People feel most comfortable in a natural environment. After all, humans perceive the world around them with all their senses. The production process allows the natural features of scent, color and feel to be preserved. No (artificial) aromas or colors are added and so our Natural Surfaces smell according to their natural characteristics and help to improve the room atmosphere.

Organoid surfaces come in a wide variety of backings (including translucent adhesives) to suit a myriad of applications including wallpapers, joinery, and acoustic purposes.

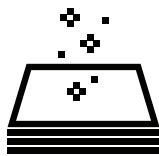

Thickness

0,2 - 1,5 mm*

Dimensions

1360 × a mm sheet (a depends on the running length you require, minimum 1000mm length)

Characteristics

Therapeutic Aroma

Surfaces exude a delicate fragrance, thanks to natural aromatic plant compounds.

Tactile Sensation

Unique biophilic textures that are pleasant to touch.

Sensitive Applications

Produced using 100% biodegradable binders and organic matter.

Sustainable

Made from upcycled materials and green manufacturing methods.

* Thicknesses vary due to the different components used for each finish.
